PROFILE SUMMARY

I am a skilled frontend developer with experience creating modern, user-focused websites. A lifelong scout, volunteer, social worker, and activist, I also mentor adolescents and contribute to online data-collection and census projects. My blend of technical skills and community work drives me to deliver meaningful, high-quality results.

WORK EXPERIENCE

Ladyfinger Software House 2021 - 2022
FONT-END DEVELOPER

- I work passionately across different platforms and enjoy learning new things.
- I have improved my web-development skills through hands-on experience and opportunities to grow.
- This journey has boosted my confidence, taking me from an ordinary developer to a creator of user-friendly websites.

Adolasents Friendly Space 2025 - Present
Mentor

- I have worked in an adolescent-friendly space as a mentor, supporting children aged 9-13.
- I guided and interacted with them, helping with personal development and learning activities.
- This experience strengthened my communication skills and ability to connect with young learners.

PRESENT AND FUTURE PLANS

I am currently involved in social work, including enrolling people in various initiatives, while also working professionally as a developer and serving as an AFS mentor. Through these roles, I have gained valuable experience in communication, leadership, and community engagement. I am looking forward to completing my BS-IT degree and further developing my expertise in IT, while continuing to contribute to social initiatives—a passion that has been an integral part of my life since birth.
